Animal Tool Behavior: The Use and Manufacture of Tools by Animals Robert W. Shumaker, Kristina R. Walkup, Benjamin B. Beck, Gordon M. Burghardt

In this revised and updated edition of the landmark publication, Robert W. Shumaker and Kristina R. Walkup join Beck to reveal the current state of knowledge regarding animal tool behavior. Through a comprehensive synthesis of the studies produced through 2010, the authors provide an updated and exact definition of tool use, identify new modes of use that have emerged in the literature, examine all forms of tool manufacture, and address common myths about non-human tool use. Specific examples involving invertebrates, birds, fish, and mammals describe the differing levels of sophistication of tool use exhibited by animals.
