## **Basic Histology (Lange Medical Book) Jose Carneiro**

Gives students the most thorough understanding of cell and tissue biology, structure, and function is now revised and updated in a FULL-COLOR Tenth Edition!

Reflecting the latest research in the field, the tenth edition provides students with a solid knowledge of how cell and tissue structures are linked with their functions. This book examines the structure and function of cells, the four basic body tissues, and each organ and organ system of the human body. Throughout, cell biology is emphasized as the most fundamental approach to understanding structure and function.

Features a full-color design, 300 full-color photomicrographs highlighting important structural details of cells and tissues, a companion CD-ROM Atlas with all 600 photos and illustrations in the book.
