Nobody: Casualties of America's War on the Vulnerable, from Ferguson to Flint and Beyond Marc Lamont Hill

One of America's leading intellectual voices presents a powerful, thought-provoking analysis of the string of deaths of unarmed citizens like Michael Brown, Eric Garner, and Freddie Gray—finding deeper meaning and important insights on the intersection of race and class in America today.

Protests in Ferguson, Missouri and across the U.S. following the death of Michael Brown revealed something far deeper than a passionate display of racial frustrations. Unveiled was an America that had consistently denied significant parts of its population access to full freedom and prosperity.

In *Nobody*, scholar and journalist Marc Lamont Hill presents a powerful and thought-provoking analysis of race and class by examining a growing crisis in America: the existence of a group of citizens who are made vulnerable, exploitable and disposable by the machinery of racism, unregulated capitalism, and more. Those considered “Nobody” in contemporary America. Through in-depth reporting and historical research Hill shows how this class has emerged over time and how forces in America have worked to preserve and exploit this group in ways that are both humiliating and harmful.

To make his case, Hill recounts the details of tragic events like the death of Michael Brown, Sandra Bland, and Freddie Gray, and the water crisis in Flint, Michigan. He also highlights alarming trends like mass incarceration, overly aggressive policing, broken court systems, shrinking job markets, and the privatization of public resources, all of which serve to worsen the plight of the vulnerable.

Timely and eloquently rendered, *Nobody* is a keen observation of the challenges and contradictions of American democracy, a must-read for anyone wanting to better understand the race and class issues that continue to leave their mark on our country today.
