Ronald A. Olsson, Aaron W. Keen

The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) Ronald A. Olsson, Aaron W. Keen

JR is an extension of the Java programming language with additional concurrency mechanisms based on those in the SR (Synchronizing Resources) programming language. The JR implementation executes on UNIX-based systems (Linux, Mac OS X, and Solaris) and Windows-based systems. It is available free from the JR webpage. This book describes the JR programming language and illustrates how it can be used to write concurrent programs for a variety of applications. This text presents numerous small and large example programs. The source code for all programming examples and the given parts of all programming exercises are available on the JR webpage. Dr. Ronald A. Olsson and Dr. Aaron W. Keen, the authors of this text, are the designers and implementors of JR.

From reader reviews:

Manuel Britton:

What do you concentrate on book? It is just for students as they are still students or the item for all people in the world, the actual best subject for that? Only you can be answered for that issue above. Every person has distinct personality and hobby per other. Don't to be forced someone or something that they don't want do that. You must know how great and important the book The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science). All type of book is it possible to see on many options. You can look for the internet resources or other social media.

Helen Rios:

This The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) is great book for you because the content which is full of information for you who have always deal with world and also have to make decision every minute. This book reveal it details accurately using great manage word or we can claim no rambling sentences within it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but hard core information with wonderful delivering sentences. Having The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) in your hand like getting the world in your arm, info in it is not ridiculous one. We can say that no publication that offer you world in ten or fifteen minute right but this reserve already do that. So , this really is good reading book. Hey Mr. and Mrs. hectic do you still doubt that?

Barbara Duty:

This The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) is brand-new way for you who has fascination to look for some information as it relief your hunger associated with. Getting deeper you on it getting knowledge more you know or perhaps you who still having bit of digest in reading this The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) can be the light food for yourself because the information inside that book is easy to get by anyone. These books develop itself in the form which can be reachable by anyone, yeah I mean in the e-book application form. People who think that in publication form make them feel drowsy even dizzy this publication is the answer. So there is not any in reading a guide especially this one. You can find actually looking for. It should be here for anyone. So , don't miss the item! Just read this e-book style for your better life and also knowledge.

Jodie Jennings:

A number of people said that they feel fed up when they reading a e-book. They are directly felt that when they get a half areas of the book. You can choose the book The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) to make your reading is interesting. Your own skill of reading talent is developing when you such as reading. Try to choose basic book to make you enjoy to see it and mingle the idea about book and examining especially. It is to be initial opinion for you to like to available a book and read it. Beside that the publication The JR Programming Language: Concurrent Programming in an Extended Java (The Springer International Series in Engineering and Computer Science) can to be a newly purchased friend when you're experience alone and confuse using what must you're doing of that time.
