The Wonder Book of Chemistry (Yesterday's Classics)

Jean Henri Fabre

The Wonder Book of Chemistry (Yesterday's Classics) Jean Henri Fabre

Starting with a mixture of iron filings and sulphur, Uncle Paul awakens in his young nephews an eagerness to learn more about the properties of the elements. Through a series of carefully-devised experiments and conversations about the experiments, he leads the boys to an understanding of some of the basic principles of chemistry. Excellent as a follow-on to "The Story Book of Science" and "The Secret of Everyday Things" by the same author. Suitable for ages 11 and up.
