30 Days: A Month at the Heart of Blair's War (Text Only) Peter Stothard

A unique, unprecedented eyewitness account of the thirty most critical days of Tony Blair's political career as Prime Minister, from 10 March 2003 to the end of the second Gulf War, written by the former editor of The Times.

For thirty extraordinary days, in March and April 2003, Tony Blair defied street protests, party revolts, allied anger and government resignations in order to send British troops to Iraq to oust Saddam Hussein. What was it like inside Downing Street during that time? What was it like while the Prime Minister risked his job for such an unpopular cause? Why did he do it? Peter Stothard, who for a month was given unprecedented access to shadow almost every move the Prime Minister made, gives a unique view from the inside.

From the 'den' of Ten Downing Street to the back corridors of the House of Commons, through councils of war in the Azores, recriminations in Brussels, personal diplomacy in Belfast and Camp David, this book takes us backstage. 30 Days throws an intimate – and frequently humorous – light on the domestic and political life of Number Ten at a time of crisis; it shows the Prime Minister's relationships not only with the President of the United States but with the writers, strategists, make-up artists and other members of the close-knit Number Ten team. It illuminates his frankest dealings with the world leaders who both backed and opposed him.

The result is a groundbreaking record of history in the making, and a gripping day-to-day chronicle of four tense and tempestuous weeks.
