Important material that is often overlooked in introductory texts is included, such as career and lifestyle planning with clients in mental health, rehabilitation, and couples and family counseling settings; gender issues; and working with LGBT and minority clients. Throughout the text, case studies, informational sidebars, and experiential activities make for a more engaging learning experience and encourage additional contemplation of chapter content.

This new edition features new, updated, and expanded content throughout; the division of career counseling in schools into separate chapters for K-8th grade, high school, and college, including traditional, hybrid, and online campuses; and an online instructor's manual with student resources, offering material to enhance the pedagogical features of the text.
