## The Scientific Study of General Intelligence: Tribute to Arthur Jensen

This book celebrates two triumphs in modern psychology: the successful development and application of a solid measure of general intelligence; and the personal courage and skills of the man who made this possible - Arthur R. Jensen from Berkeley University.

The volume traces the history of intelligence from the early 19th century approaches, to the most recent analyses of the hierarchical structure of cognitive abilities, and documents the transition from a hopelessly confused concept of intelligence to the development of an objective measure of psychometric g. The contributions illustrate the impressive power g has with respect to predicting educational achievement, getting an attractive job, or social stratification.

The book is divided into six parts as follows: Part I presents the most recent higher-stream analysis of cognitive abilities, Part II deals with biological aspects of g, such as research on brain imaging, glucose uptake, working memory, reaction time, inspection time, and other biological correlates, and concludes with the latest findings in g-related molecular genetics. Part III addresses demographic aspects of g, such as geographic-, race-, and sex-differences, and introduces differential psychological aspects as well. Part IV concentrates on the g nexus, and relates such highly diverse topics as sociology, genius, retardation, training, education, jobs, and crime to g. Part V contains chapters critical of research on g and its genetic relationship, and also presents a rejoinder. Part VI looks at one of the greatest contemporary psychologists, Professor Emeritus Arthur R. Jensen as teacher and mentor.

### **From reader reviews:**

#### **Lawrence Gregory:**

The book *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* can give more knowledge and information about everything you want. Why then must we leave a very important thing like a book *The Scientific Study of General Intelligence: Tribute to Arthur Jensen*? A number of you have a different opinion about e-book. But one aim that book can give many details for us. It is absolutely right. Right now, try to closer along with your book. Knowledge or details that you take for that, you could give for each other; you may share all of these. Book *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* has simple shape but the truth is know: it has great and large function for you. You can search the enormous world by open and read a reserve. So it is very wonderful.

#### **John Folsom:**

Do you among people who can't read enjoyable if the sentence chained from the straightway, hold on guys this particular aren't like that. This *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* book is readable by simply you who hate the perfect word style. You will find the data here are arrange for enjoyable examining experience without leaving even decrease the knowledge that want to deliver to you. The writer of *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* content conveys the thought easily to understand by a lot of people. The printed and e-book are not different in the content but it just different such as it. So , do you nevertheless thinking *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* is not loveable to be your top collection reading book?

#### **Rina Reese:**

Is it you actually who having spare time then spend it whole day by means of watching television programs or just telling lies on the bed? Do you need something new? This *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* can be the solution, oh how comes? The new book you know. You are consequently out of date, spending your extra time by reading in this new era is common not a geek activity. So what these guides have than the others?

#### **Christina Harper:**

As we know that book is essential thing to add our understanding for everything. By a e-book we can know everything we really wish for. A book is a list of written, printed, illustrated or perhaps blank sheet. Every year was exactly added. This e-book *The Scientific Study of General Intelligence: Tribute to Arthur Jensen* was filled regarding science. Spend your extra time to add your knowledge about your scientific research competence. Some people has several feel when they reading any book. If you know how big selling point of a book, you can really feel enjoy to read a e-book. In the modern era like currently, many ways to get book that you wanted.
