Videoendoscopy: From Velopharynx to Larynx (Bgc Monograph) Michael P. Karnell, Karnell

This book presents principles, guidelines and application information on the use of videoendoscopy as part of the speech production assessment protocol used by speech-language pathologists. The author explains clearly the rationale for videoendoscopy, when it should be performed, by whom, and where. Instrumentation and successful techniques along with specialized procedures are covered in detail. This is an indispensable reference for clinicians using videoendoscopy in the assessment of velopharyngeal, laryngeal and/or esophageal functions. This book should be of interest to speech and language therapists, speech pathologists, voice specialists, specialists in cleft palate and craniofacial anomalies.
