Flash 8 ActionScript Bible Joey Lott, Robert Reinhardt

To create Flash applications that sizzle, you have to learn the code. In this comprehensive guide to the latest version of ActionScript, the object oriented scripting language for Macromedia Flash, you'll get the detailed instruction and step-by-step tutorials you need to write robust code and create sophisticated interactive animations. Work with objects and components, interoperate with JavaScript, create games, and more - it's all here in this informative book for developers, programmers, and designers. Inside, you'll find complete coverage of Flash 8 ActionScript Master - the basics of ActionScript expressions, functions, and variables. This title helps you to: work with numbers, arrays, and strings; transform your movie clips with colors and filters; program sound and manage video; manage data with Web Services and Flash Remoting; call ActionScript functions from JavaScript; and, learn scripting for the Flash stand alone player.
