## **Directing the Camera** Gil Bettman

The first half of this book is devoted to teaching a systemized approach that can be used to design the very best moving shot for any dialogue scene, no matter how complex or long. Bettman's "Five Task" approach enables the aspiring director to quickly grasp this difficult element of directorial craft. In the second half the reader is taught how to shoot action sequences using moving and static cameras and the gamut of lenses to achieve the magic trick essential to shooting action — making stunts that are highly controlled and neither violent nor dangerous look completely mind-blowing.
