Life Beyond Death: Selected Lectures Rudolf Steiner

Although western humanity has conquered the outer world with the aid of technology and science, death remains an unsolved and largely unexplored mystery. Rudolf Steiner, an exceptional seer, was able to research spiritually the question of what happens to human consciousness after the physical body passes away. In these remarkably matter-of-fact lectures he affirms that life continues beyond death. Far from being dissipated, the individual's consciousness awakens to a new reality, beginning a great journey to the farthest expanses of the cosmos. Here it embarks on a process of purification and preparation. Rudolf Steiner indicates that one of the most important tasks for our present civilization is the reestablishment of living connections with those who have died. He gives suggestions as to how this can be done safely, and describes how the dead can be of help to those on earth.
