An indispensable lighting reference you'll refer to again and again

Photography is all about light, yet light remains one of the most confusing and intimidating topics for amateur photographers. *The Photographer's Lighting Toolbox* is a complete introduction to lighting principles, gear, and techniques, including:

- the basics of exposure: metering, bracketing, exposure value, depth of field, and more
- gear and techniques associated with the four main types of light: natural light, modified light, continuous light, and flash illumination
- setups for a variety of lighting scenarios, from simple to complex, with foolproof diagrams showing what to put where

With easy-to-grasp explanations of complex lighting concepts, clear lighting diagrams, and a thorough review of all the gear you'll need, this is an indispensable reference for photographers of all levels interested in using light for more professional results.
