Akbar, Emperor of India Richard von Garbe

The student of India who would at the same time be an historian, discovers to his sorrow that the land of his researches is lamentably poor in historical sources. And if within the realm of historical investigation, a more seductive charm lies for him in the analysis of great personalities than in ascertaining the course of historical development, then verily may he look about in vain for such personalities in the antiquity and middle ages of India. Not that the princely thrones were wanting in great men in ancient India, for we find abundant traces of them in Hindu folk-lore and poetry, but these sources do not extend to establishing the realistic element in details and furnishing life-like portraits of the men themselves. That the Hindu has ever been but little interested in historical matters is a generally recognized fact. Religious and philosophical speculations, dreams of other worlds, of previous and future existences, have claimed the attention of thoughtful minds to a much greater degree than has historical reality.
