## **At Risk in America: The Health and Health Care Needs of Vulnerable Populations in the United States** Lu Ann Aday

This updated second edition of *At Risk in America* provides a detailed analysis of those key population groups most vulnerable to disease and injury in the United States today—including homeless persons, refugees and immigrants, people living with AIDS, alcohol and substance abusers, high-risk mothers and infants, victims of family or other violence, and the chronically or mentally ill. Lu Ann Aday reviews the major theories and knowledge concerning these at-risk groups and offers new approaches and methodologies for tracing the social determinants and societal influences on health. She examines the specific health needs and risks faced by these groups, their experience in the health care system, the current policies and programs that serve them, and the research and policy initiatives that might be undertaken to help reduce their vulnerability.
