Planck: Driven by Vision, Broken by War Brandon R. Brown

Max Planck is credited with being the father of quantum theory, and his work was described by his close friend Albert Einstein as "the basis of all twentieth-century physics." But Planck's story is not well known, especially in the United States. A German physicist working during the first half of the twentieth century, his library, personal journals, notebooks, and letters were all destroyed with his home in World War II. What remains, other than his contributions to science, are handwritten letters in German shorthand, and tributes from other scientists of the time.

In *Planck: Driven by Vision, Broken by War*, Brandon R. Brown interweaves the voices and writings of Planck, his family, and his contemporaries--with many passages appearing in English for the first time--to create a portrait of a groundbreaking physicist working in the midst of war. Planck spent much of his adult life grappling with the identity crisis of being an influential German with ideas that ran counter to his government. During the later part of his life, he survived bombings and battlefields, surgeries and blood transfusions, all the while performing his influential work amidst a violent and crumbling Nazi bureaucracy. When his son was accused of treason, Planck tried to use his standing as a German "national treasure," and wrote directly to Hitler to spare his son's life. Brown tells the story of Planck's friendship with the far more outspoken Albert Einstein, and shows how his work fits within the explosion of technology and science that occurred during his life.

This story of a brilliant man living in a dangerous time gives Max Planck his rightful place in the history of science, and it shows how war-torn Germany deeply impacted his life and work.

From reader reviews:

Graciela Tubbs:

As people who live in the modest era should be upgrade about what going on or info even knowledge to make these individuals keep up with the era which is always change and progress. Some of you maybe will update themselves by studying books. It is a good choice for you but the problems coming to you is you don't know what one you should start with. This Planck: Driven by Vision, Broken by War is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Susan Ross:

Now a day individuals who Living in the era everywhere everything reachable by connect with the internet and the resources inside it can be true or not need people to be aware of each information they get. How people have to be smart in getting any information nowadays? Of course the reply is reading a book. Reading a book can help men and women out of this uncertainty Information specially this Planck: Driven by Vision, Broken by War book because this book offers you rich info and knowledge. Of course the info in this book hundred percent guarantees there is no doubt in it everbody knows.

Patrick Myers:

Your reading 6th sense will not betray you, why because this Planck: Driven by Vision, Broken by War guide written by well-known writer whose to say well how to make book which can be understand by anyone who also read the book. Written with good manner for you, leaking every ideas and publishing skill only for eliminate your current hunger then you still question Planck: Driven by Vision, Broken by War as good book not just by the cover but also by the content. This is one guide that can break don't determine book by its deal with, so do you still needing yet another sixth sense to pick this!? Oh come on your reading through sixth sense already alerted you so why you have to listening to a different sixth sense.

Evelyn Rogers:

Is it you actually who having spare time after that spend it whole day simply by watching television programs or just resting on the bed? Do you need something new? This Planck: Driven by Vision, Broken by War can be the response, oh how comes? A book you know. You are and so out of date, spending your time by reading in this new era is common not a nerd activity. So what these publications have than the others?
