## **Pmp Exam Study Guide** Kim Heldman

This book is a concise, yet comprehensive study aid for the upcoming project management professional (pmp) certification administered by pmi. It is useful for both those new to program management, as well as individuals with years of experience. The primary purpose of the book is to help the reader pass the pmp exam, but also serves as a good reference after the exam. The book is based on the pmp body of knowledge. Detailed discussion on a wide-range of pmp topics, concepts and key terms are presented in a logical manner. Each chapter includes a list of objectives followed by in-depth discussion on them, complete with hands-on real world scenarios and how this applies to your current project sidebars. The chapter concludes with an exam essentials section and comprehensive review questions. The companion cd features leading-edge exam prep software with test engine of practice questions and electronic flashcards. Also included is 2 hours of additional audio. In addition, the book prepares those studying for the new certified associate in project management (capm) program offered by pmi by including two bonus capm exams on the cd.
