Umberto Quattrocchi

CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology (5 Volume Set) Umberto Quattrocchi

"Following on the successes of two previous dictionary projects, the *CRC World Dictionary of Plant Names* and the *CRC World Dictionary of the Grasses*, Umberto Quattrocchi has undertaken this dictionary of economically important plants.... He has done for these plants what was so admirably done in his other works—brought the vast and scattered literature on plant names, and in this case, too, their uses, into coherent order so that the inquisitive scholar can get a foothold."

—From the Foreword, Donald H. Pfister, Harvard University and Harvard University Herbaria, Cambridge, Massachusetts

The **CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology** provides the starting point for better access to data on plants used around the world in medicine, food, and cultural practices. The material found in the five volumes has been painstakingly gathered from papers of general interest, reports and records, taxonomic revisions, field studies, herbaria and herbarium collections, notes, monographs, pamphlets, botanical literature, and literature *tout court*. It includes sources available at various natural history libraries, floras and standard flora works, local floras and local histories, nomenclatural histories, and the *International Code of Botanical Nomenclature*.

Much more than a dictionary, the book provides the names of thousands of genera and species of economically important plants, concise summaries of plant properties, and appropriate observations about medicinal uses. Drawing from a tremendous range of primary and secondary sources, it is an indispensable time-saving guide for all those involved with botany, herbal medicine, pharmacognosy, toxicology, medicinal and natural product chemistry, and agriculture.

That publication can make you to feel relax. This specific book CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology (5 Volume Set) was multi-colored and of course has pictures around. As we know that book CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology (5 Volume Set) has many kinds or genre. Start from kids until adolescents. For example Naruto or Detective Conan you can read and believe you are the character on there. Therefore , not at all of book are usually make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading in which.

Lauren Barnett:

As a scholar exactly feel bored to help reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring along with can't see

colorful images on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology (5 Volume Set) can make you really feel more interested to read.
