## Human-Nature Interactions in the Anthropocene: Potentials of Social-Ecological Systems Analysis (Routledge Studies in Environment, Culture, and Society)

This book deals with the potentials of social-ecological systems analysis for resolving sustainability problems. Contributors relate inter- and transdisciplinary perspectives to systemic dynamics, human behavior and the different dimensions and scales. With a problem-focused, sustainability-oriented approach to the analysis of human-nature relations, this text will be a useful resource for scholars of human and social ecology, geography, sociology, development studies, social anthropology and natural resources management.
