Nivaldo J. Tro

## Chemistry: Structure and Properties, Books a la Carte Edition Nivaldo J. Tro

**NOTE:** This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value for your students—this format costs 35% less than a new textbook. Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

*For two-semester general chemistry courses*

Bestselling author Niva Tro has always believed “the behavior of matter is determined by the properties of molecules and atoms” to be the most important discovery in scientific knowledge. This idea is the entire organizing factor for his seminal new text— *Chemistry: Structure and Properties*. Dr. Tro emphasizes the relationship between structure and properties, establishes a unique atoms-first approach to teaching chemistry by presenting atomic and bonding theories early in the text, and stresses key themes throughout. The book is organized to present chemistry as a logical, cohesive story from the microscopic to the macroscopic, so students can fully grasp the theories and framework behind the chemical facts. Every topic has been carefully crafted to illustrate that the relationship between structure and properties is the thread that weaves all of chemistry together.

While developed independently of other Tro texts, *Chemistry: Structure and Properties* incorporates the author’s vivid writing style, chemical rigor, dynamic multi-level images, and tested features. His consistent conceptual focus and step-by-step problem-solving framework encourages you to think through processes rather than simply memorize content. Interactive media within MasteringChemistry® complements the book’s problem-solving approach, thus creating a comprehensive program that enables you to learn both in and out of the classroom.

This program presents a better teaching and learning experience—for you.

- **Personalized learning with MasteringChemistry:** This online homework, tutorial, and assessment program is designed to improve results by helping you quickly master concepts. You'll benefit from self-paced tutorials, featuring specific wrong-answer feedback and hints that emulate the office-hour experience.
- **Developed with a central theme and by a teaching community:** As part of a community that teaches with the understanding that matter is composed of particles and the structure of those particles determines the properties of matter, Dr. Tro took great lengths in the text to ensure that everything from organization, art, and pedagogy reinforce this theme. The result of this emphasis is that the topic order has been constructed to make key connections earlier, stronger, and more often than the traditional approach.
- **Linking conceptual understanding with problem-solving skills:** Throughout each chapter, numerous Conceptual Connections encourage comprehension of the most complex concepts while a consistent step-

by-step framework in the worked examples allows you to think logically through the problem-solving process.

- **Visualizing and understanding chemistry:** Revolutionary multipart images illustrate and reinforce the theme of the text and allows you to see and experience the molecules responsible for the structures and properties of matter.

### **From reader reviews:**

#### **Kelly Thompson:**

Book is written, printed, or descriptive for everything. You can know everything you want by a guide. Book has a different type. We all know that that book is important factor to bring us around the world. Close to that you can your reading talent was fluently. A reserve Chemistry: Structure and Properties, Books a la Carte Edition will make you to possibly be smarter. You can feel more confidence if you can know about every little thing. But some of you think that open or reading a book make you bored. It isn't make you fun. Why they might be thought like that? Have you trying to find best book or appropriate book with you?

#### **Melissa Sands:**

What do you concentrate on book? It is just for students since they are still students or the idea for all people in the world, what the best subject for that? Just you can be answered for that problem above. Every person has distinct personality and hobby for every other. Don't to be pushed someone or something that they don't need do that. You must know how great in addition to important the book Chemistry: Structure and Properties, Books a la Carte Edition. All type of book would you see on many methods. You can look for the internet sources or other social media.

#### **Rebecca Moreno:**

Nowadays reading books become more than want or need but also turn into a life style. This reading routine give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The information you get based on what kind of guide you read, if you want attract knowledge just go with schooling books but if you want feel happy read one together with theme for entertaining including comic or novel. Often the Chemistry: Structure and Properties, Books a la Carte Edition is kind of guide which is giving the reader unstable experience.

#### **Susan Douglas:**

Playing with family within a park, coming to see the ocean world or hanging out with friends is thing that usually you could have done when you have spare time, after that why you don't try issue that really opposite from that. 1 activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Chemistry: Structure and Properties, Books a la Carte Edition, you can enjoy both. It is very good combination right, you still wish to miss it? What kind of hangout type is it? Oh can occur its mind hangout folks. What? Still don't get it, oh come on its called reading friends.
