Solar Cataclysm: How the Sun Shaped the Past and What We Can Do to Save Our Future Lawrence E. Joseph

Science journalist and futurist Lawrence Joseph has studied the unprecedented solar storms since the last ice age and in *Solar Cataclysm* he reveals the monumental ecological, biological, emotional, political, financial, and cultural effects they have had in the past, and will ultimately have on humanity's future. This timely, fascinating, and relevant book from the bestselling author of *Apocalypse 2012* sounds an intelligent and urgent warning about the possible catastrophic consequences we will face in the coming years if we don't listen to what the sun is trying to tell us. Popular science fans who made *The World Without Us* a runaway bestseller, readers open to new angles on history like those presented in *Guns, Germs, and Steel*, and anyone who is concerned about tomorrow and what we can do to ensure humankind's survival must read *Solar Cataclysm*.
