## **Connected Leadership: How to build a more agile, customer-driven business** Simon Hayward

*Connected Leadership* provides a clear, practical guide for leaders of organisations who wish to create a more connected, agile and customer-oriented organisation in a digitally connected, customer-driven 21<sup>st</sup> century business environment.

It lays out the key factors of the connected organisation and the leadership behaviours that will allow these factors to become embedded and sustainable. It provides a range of case examples to demonstrate what this looks like in practice, complemented by a series of tools and techniques that leaders can use to diagnose their organisation's current position and plot a successful course to achieve these more connected ways of working.

It is, at heart, a real-world guide to changing your leadership style and approach to align an organisation's culture and values with those needed in a world where the prevailing models of command and control are so obviously failing.

*Connected Leadership* will show you how to:

- Create a more agile organisation & respond swiftly to changing markets & customer needs
- Cope with increasing market complexity & uncertainty
- Build trust, reputation & become a more authentic leader
- Develop a 'connected leadership' approach
