Pursuing Consciousness: The Book of Enlightenment and Transformation Peter Ralston

Building on his previous groundbreaking work, Peter Ralston once again proves to be a sure-footed guide for readers seeking to negotiate the challenging terrain of personal and spiritual growth. In accessible language, Ralston demonstrates how the lofty goals of self-transformation and enlightenment can be achieved with a no-nonsense approach available to anyone willing to reach beyond their current experience of self and reality. *Pursuing Consciousness* is a down-to-earth handbook for staying focused on the work at hand, even while tackling such unsettling tasks as investigating deeply ingrained psychological beliefs and identifying common areas of misunderstanding that hamper transformative growth.

Ralston explains that deeper levels of consciousness aren't just for monks—anyone can have an enlightenment experience. He shows that enlightenment does *not* transform the self, and transforming the self does *not* produce enlightenment. Once we grasp that these two pursuits take place in entirely different domains of consciousness, we can use each to empower the other. Ralston provides specific tools for changing the very person that we experience being. His work has been acclaimed by people from a diverse range of disciplines—including spiritual teachers, psychiatrists, cognitive scientists, physicists, and artists. As with Ralston's previous works, this book points the way to a direct encounter with the true nature of Being and the possibility of real personal change.
